Partner in eMobility

# Mobiflow works with installers & wholesalers

## Installers

Hardware and software go hand in hand. Mobiflow offers software that is compatible with the main hardware brands on the market. To make software installation as smooth as possible, we have developed an offer specifically for installers:

- OCPP setup manuals of all major hardware brands on the market.
- Quick Start Guide to smoothly install Mobiflow software.
- Training courses after which installers belong to the network of 'Mobiflow Certified Installers'. Check our website for training dates.
- General support for installers.

## Electrical wholesalers

Electrical wholesalers and Mobiflow offer a total package of hardware and software to end customers. Regardless of the choice of hardware brand, installers can connect the end customers' charging infrastructure with Mobiflow software to get even more out of their charging point:

- Overview of charging sessions.
- Public opening to guest users.
- Reimbursement of home charging sessions (split billing).
- Tax incentive for companies with charging points that are smart, controllable and publicly accessible.

Hardware brands from external partners can be perfectly combined with Mobiflow's smart software solution. The tax incentive is thus ensured and the end customer is offered a total solution.

# Mobiflow management platform for electric charging points

Add smart services to your charging point by connecting it to the Mobiflow online management platform: Consult an overview of your charging sessions, open your charging point to guest users or, as an employer, reimburse your employees' home charging sessions.

The Mobiflow platform offers a tailor-made solution for every target group!

## Private individuals with an electric car

- Consult an overview of your charging sessions, both public and private.
- Protect your charging point against unauthorised use.

## Private individuals or companies wanting a public charging point

- Be part of one of the largest charging networks in Europe. Determine the fee you receive for public charging sessions at your charging point.
- Determine which charging cards charge for free at your charging point. (white listing)
- Consult an overview of your charging sessions at any time.

## Company owners who charge at home

- Receive reimbursement of your home charging sessions as a private individual. (split billing)
- Get a real-time overview of your home charging sessions.
- Consult an overview of your charging sessions at any time.

## Employers who want to reimburse home charging sessions

- Reimburse the home charging sessions of your employees with an electric company car. (split billing)
- Consult an overview of your employees' charging sessions.

# Manage your charging point with our platform

A simple charging point at home or a public charging point for customers or employees of your company? Each has its challenges. Because every charging point is different, we offer different formulas tailored to your needs.

Check our website for more information and prices per formula.

## Our subscriptions

Below is an overview of our subscriptions. Do you have big plans and want to get started with DC fast chargers? Or would you like to find out about our special price offers for charging stations? Contact our experts for a tailor-made offer.

	Online Access	Charging card Control	Split Billing	Roaming
<b>Private</b> Charging AC	●	●		
<b>Professional</b> Charging AC	●	●	●	
<b>Public</b> Charging AC	●	●	●	●
<b>Super</b> Charging DC	●	●	●	●

# Mobiflow charging card & app

Charge carefree at home and on the go, with the Mobiflow charging card and app

## Mobiflow charging card

The Mobiflow charging card gets you to your destination smoothly!

- No purchase or activation cost for your first charging card.
- Access to one of the largest European networks of public charging points.
- Superfast charging along the motorway and in the city at the well-known fast charging networks.

Request your free Mobiflow charging card on our website or scan the QR code on the back of this leaflet.

## Mobiflow app

The Mobiflow app is your personal assistant to efficiently and informed charging:

- Find an available charging point near you.
- Check the price of a charging session in advance
- Consult an overview of your charging sessions.
- Other mobility solutions available in the app.

Download the free app via Google Play or in the App Store or scan the QR code on the back of this leaflet.

Happy charging!
